MEMORANDUM FOR: DA Plans Officer

ATTENTION:

25X1

FROM:

25X1

Chief, Planning and Resources Staff, O/DDS&T

SUBJECT: FY 1985 R&D Program

1. In keeping with the guidance contained in the Program and Budget Call published by the CIA Comptroller in January 1983, the DDS&T has modified the format in which R&D funding levels and projects will be displayed in the FY 1985 Budget Estimates and CBJB. The majority of funding levels displayed will be programmatic area totals only; i.e., Physical Security, Information Systems, etc. without the need to identify specific projects contained therein.

3. In a guidance letter to ORD we have suggested that they submit a New Initiative (Enhanced R&D Support) in accordance with the FY 1982 Long Range Planning studies supporting the recommendations of the Intelligence Research and Development Council Working Group that called for improvements in funding.

25X1

4. Every effort has been made to accommodate the stated needs of the Directorate of Administration within the FY 1985 R&D program. Unfortunately, not all of your items could be included within the Base Level of the program. We have included the first 11 ranked items as well as DDA #14, #15, #21, #25, and #26.

5. As in past years the Office of Research and Development will have Technology Development funding for which actual efforts will be determined just prior to the beginning of the execution year.

6. Please direct any questions to the Planning and Resources Staff regarding programmatic area funding levels, generic contents of programs, etc.
